

NINA & NIKKI

Wedding photography & video 2026

ABOUT US

Nina //

Nina is a cheerful optimist who lives in the moment and enjoys the small things in life. A born autodidact who prefers to do things in her own way with a curious mind. She's currently studying holistic massage therapy, something that brings her joy, connection and keeps her grounded. Above all, she loves being mother of Ravi & Billie.

She is intrigued and inspired by people. Nina loves to capture intimacy and the little moments in between. She makes people feel at ease in front of the camera. That makes her photo's and video's authentic and real.

Nikki //

Nikki is an impulsive spirit who thrives on adventure, nature and her animals. She has seen much of the world and her love for people shines through in her work.

Alongside her creative work, Nikki is a certified horse coach and also works in social care. Both reflect her empathy and intuitive sense for others. She's determined, detail oriented and gifted at discovering unexpected beauty. That what makes her work exciting and mysterious, just like she is.

OUR STORY

How we work

We both started photographing in the nightlife of Amsterdam. When we met, we thought there was a lot of competition between photographers, and we believed we should work more together. That's where the idea photographing together started. We had our first wedding in 2015, and this was a succes!

By photographing together, we have noticed that we strengthen each other's image. There is more room for our own creativity to capture special shots and different angles. We can split up in the morning or during the day so we won't miss a moment. One person can focus more on the bride and groom, and the other on the guests and details.

We work with different lenses to get good portraits and overviews at the same time. We are perfectly attuned

to each other. In 2017, Nina started to explore videography. For a few years now, this has been a very popular option to book us as photographer and videographer. However, photographing together remains our favorite choice!

Synergy: the whole is greater than the sum of its parts.

We capture the day intuitively, informally, and documentary-style. Our focus lies with real, pure, and intimate moments. We mostly operate in the background and mingle with the guests to capture people as purely and spontaneously as possible.

OUR STYLE

What to expect?

- Guidance before and on the day
- We don't hide in the background, we're right there with you.
By being close we capture the raw emotions, subtle glances and all the in-between moments that tell the story of your day.
- Our presence is warm, intuitive and always respectful of the moment.
- A little photo teaser a week after the wedding
- High resolution photos
- Optional: access to your personal online photo gallery with a unique password for you and your guests, available for 3 months.
- More than just a photographer/videographer, we blend in as good guests as well.
- Personal (digital) meeting, we believe it is very important to get to know each other and all of your wishes.

THE PHOTOSHOOT

Our favorite part is the photoshoot with the bride and groom during the wedding day. Since a wedding day can be quite intense and overwhelming, we've noticed that this is also a moment for you to truly be together and present without the guests or family around. We would love to make it a special moment and take our time to capture our shots without rushing.

We've noticed that when the photoshoot is scheduled after the ceremony, you will be more relaxed.

The most beautiful light appears one hour before sunset.

VIDEOGRAPHY

Re-live the best day of your life

A great addition to the photo's is ofcourse a video.

We deliver a 8-15 minutes video (depending on how many days) which document your beautiful day. All the real laughs, hugs and of course the tears.

We have a photography aproach, which means we work with a small camera to blend in during the day. We work with natural sound and ambient audio, no hidden mics or wires, just real voices and real moments.

If you want to have a seperate full record of the vows and speeches we can discuss some options:

Second camera & wireless microphones (EDIT)(€€€)

High quality record of your ceremony from one angle and crystal-clear vows. Want to make sure your vows or speeches are captured perfectly, even outdoors? We offer the option to use wireless microphones, small, discreet clip-ons that capture clean audio without getting in the way.

We only use them when it really adds value and always with care and comfort in mind.

360° camera (RAW) (€)

Experience your wedding from every angle. With our 360° camera we capture your special day in a unique and immersive way. This camera films in all directions at once, allowing you to relive your wedding as if you were right there again. Turning around seeing your guests' reactions, the setting and all the little moments around you. Perfect for sharing with friends and family.

LET’S TALK BUSINESS

Prices included VAT

PHOTOGRAPHY

Package	Details	Price

ADDITIONAL COSTS

- Travel expenses: €0,35 per km (car)
- Public transport: Full costs

DESTINATION WEDDING

You can only book us as duo photographer for destination weddings. We have experienced in the past years that our strength lies in photographing as a duo. This way, you get the most diverse pictures of your weekend, and we also enjoy it the most.

PHOTOBOOK

If you are interested in a photoalbum we will send you an extensive file with options and pricing.

We create high-quality photo albums based on your wishes. Along the way, we showcase samples, allowing you to feel the various textures of linen, fabric, and leather. The final album is presented in a stunning box, offering a selection of designs and colors to suit your preferences.

Since the summer is our most busiest time we'll make the books in the winter

AGREEMENTS

We require a down payment of €250. The delivery date for photography will be approximately 2 months after the wedding, and for videography it will be 4 months. We will send an invoice after the wedding day, with the remainder of the invoice amount due within 30 days.

If the wedding is cancelled and rescheduled to another date, and we are available, nothing changes, and we will adjust to the new date. However, if the wedding is cancelled and we are not available, there will be no refund of the down payment.

If we are prevented by special circumstances, we will consider finding a suitable replacement in consultation with you (if possible). If that's not achievable, the advance will be refunded.

We would like to use some of the most beautiful images and videos from your day for our website and Instagram. Let us know if you prefer not to.

The bride and groom are permitted to use our photos for personal purposes such as social media, if our company name is mentioned. If a third party indicates interest in publishing our photos, please direct them to us. This is to prevent our photos from being used without permission for commercial purposes.

We will back up your photos and video for 12 months. After that, we will delete the Raw-files.

WISHES

We would love to meet the wedding couple (virtually) in advance to see if it's a match.

If there will be more than approximately 100 guests, we prefer to photograph together.

We would like to have time included for lunch and dinner. During dinner, we prefer to sit not too far from the wedding couple to have an overview of the scenery and be able to jump in when there's a speech.
